## First Stage Judging

The first stage of judging for “JMA International Jewelry Design Competition 2016” (the Competition) was held successfully on 16th June, 2016 at HKJMA’s Hong Kong Office. This year, we have received more than 560 pieces of work in all. Oversea work makes up 80% of the applications.

The theme “Unity”, symbolizing people from all walks of life unite together and make the world a better place, would be presented by various shapes, forms, materials and craftsmanship etc. when it comes to forming an artwork.

To make the Competition widely recognized, the judging panel was formed by representatives of jewelry associations in Hong Kong and they would judge the entries based on several criteria embracing its expression, creativity and sales potential etc. 45 entries from three Participating Group- Open Group I / Open Group II / Computer Aided Design) have been selected entering the final stage.

All the jewelry items under the Open Group will be on show at the “September Hong Kong Jewellery & Gem Fair” on 16 September, 2016 The result and award presentation ceremony will be held during the “Hong Kong International Jewelry Manufacturers’ Show 2016” in November.
